Manufacturers of Each Demand Protection for Their Own Products,

But Wants the Other's Free-Free Trade Democrats of the North and South Stand hotidly Together-A Titanie Task Before This Congress. WASHINGTON, Sept. 4 - Already mem-Washington, Sept. 4.—Already members of the house committee on ways. But four times there were blockades

inary straggles between the manufacturers of New England and the con- wood, four miles from the center of west and northwest in the early work upon the new tariff bill. There facilities were not sufficient to receive is so division of sentiment between the the demand. free trade democrats of the south and It is estin north. They stand solidly for absolute freedom in all commercial transactions both domestic and

have few interests in common New England makes "Yankee notions" and The stranger the great manufactured articles for the great west, while the latter produces from the ground for the accuracy of the scenes on the scenes on the scenes of from the ground for the former. The Yankee wants protection for his pro-Yankee wants protection for his productions and free competition with the world in the supply of all which the western farmer produces. The humble tiller of the soil who labors in the setting sun of course would like farm produces to be protected, but he is in open war against the Yankee who supplies him with manufactured goods. It would seem that he southerner and the inhabitant of any of the middle states was an uninterested spectator in the struggle upon which the two tariff committees of congress are entering.

It seems to be an endless task to rec-

onelle the two widely-separated interests of New England and the Trans-Mississippi country. Chairman Wilson of the committee on ways and means says that no committee can do its duty | things: with its eyes and ears wide open; that it is necessary to "go it blindly" in the work of tariff revision, as it is almost impossible to give audience and action to one interest without doing violence to another. When the McKinley tariff bill was prepared there was a general raising of customs duties, and almost every one interested in the production of any article from the shop or ground was given favor; but now that it is necessary to cut down the duties and at the same time increase the revenues of

the government, the task before con-When the Mills bill was presented to congress a half-dozen years ago, hearings were given to consumers and pro-ducers alike; but it is not the intention In this congress to ask consumers to speak, because there is little time in which to prepare the tariff bill. There is great anxiety everywhere as to what the new measure will provide, and the city, comfortably accommodating greater anapense as to what interests 5,000 people, was packed Monday night. penitentiary in charge of Mr. Boyle, the governor's private secretary.

## STATE BANKS.

Washington, Sept. 5.—Every logisla-tor in Washington is talking Monday about the subjects discussed at the connight and at the treasury department

atallroadway, crashed into a telegraph pole, and one passenger was killed, three fatally injured, and twenty-six others more or less seriously hurt. The accident occurred on the Avondala electric line.

Three minutes of mortal terror, whirling along through clouds of dust, in a runaway car at a speed that, at the finish, is described as close to one huncered miles an hour, is an experience that will never be effaced from the memory of those who passed through its horrors and will live to tell the tale.

It is understood that it was President followed here was a lively tilt between the memory of those who passed through its horrors and will live to tell the tale.

Cleveland who first broached the set the cast to repy to the former proposition to provide a new volume of currency through state banks and to make those institutions as nearly secure as possible by federal supervision the same as is now given national banks.

Washington, Aug. II. SEXAND Scatter Course of the silver question. In his speech Mr. Sherman wedenced us regret that Mr. Voorbrees, of I can be some as it is now a provided in the same as it is now given national banks. car, itself weighing several tons, with make those institutions as nearly se-its load of precious freight shot with a cure as possible by federal supervision

relocity seidom attained in the most expeditions railway traveling, and the wonder of all was that the figing menster kept the ralls as long as it did. Down the steep grade the terrible specter shot past wide-eyed and open-mouthed pedestrians, and along the level grades it coasted, and then, a quarter of a mile from the finish, took the plunge that could end only in death and destruction.

It struck the sharp curves in the road with joits that huddled the passengers together in heaps, and even despite the efforts of the cool-headed crew, who tried to throw it from the rails, it held to them with a pertinacity that surely was predetermined by fate.

should have used such a word as account to expression had caused him personal distress. Mr. Voethees interrupted Mr. Sherman at this peaking equipment to Saturday, and which is credited to the president, provides in the tax on state banks shall in part be secured by a deposit of government bonds and in his mind at all when he spoke.

Hotelor saked manimous consent to introduce a bill repeating the statute authorizing the appointment of marshals and supervisors of elections. Mr. Dingler deposit on hall be repealed, and a tax of one-half of one per cent on national bank circulation, and the tax husbanded by the fedito them with a pertinacity that surely was prodetermined by fate. tried to throw it from the rails, it held to them with a pertingoity that surely was prodetermined by fate.

On, on it went for about a mile, when a steep declivity was reached, and the steep declivity was reached, and the be subjected to federal inspection.

things:

"I thank you comrades My friends I have feit during the hast two months as I rested by the areashore that I was in some degree a shire the areashore that I was not here to share those have been the property of the season of the protection of the property of the season of the protection of the protection of the state bank circulation scheme of all its doubtful features if authority is given its resumption. Of course, the seamed an awful fate. But even this seemed an awful fate. But even this seemed an awful fate. But even this seemed an awful fate was help of the state bank circulation of course, the seamed an awful fate was not for all. The ponderous is given its resumption. Of course, the seame was not for all. The ponderous these was have been the brunt of this great rock."

The ar-president then recalled the time when the pole which, standing upright, sliced the car in two as with a knife for a distance of eight feet. And
